# COURSE OF STUDY.

---

The Divisions, I, II, III, etc., in the foregoing Table, are made with reference rather to the studies in charge of different teachers than to a strictly logical grouping of subjects. The annexed SYLLABUS is intended as a Key to the Table.

---

## DIVISION I.

THEORY AND ART OF TEACHING. *Third Term.* (1.) Organization of Schools, and the Principles involved in it. Objects of School, and Nature of Education. Classification: On what basis should it be made? How large should classes be? Programme of Daily Exercises: How should it be adjusted? Should every study have the same time for recitation with every other? Why? Usefulness of such a programme. (2.) Objects to be aimed at in Recitation: How may the teacher promote the habit of Industry in his pupils? Correct Habits of Study? A correct Use of Language? Honesty? Kindness and Good Manners? The kind of Questions that should be employed in recitation. (3.) The Order, in time, of the Development of the Mental Faculties, and the Exercises best adapted to promote such development. (4.) Education of the Senses: Possibility of such culture. The Use to be made of Colors, Forms, Vocal Analysis, Reading, Music, in educating the Senses. The School Studies best adapted to the training of the Senses. (5.) Education of the Memory: Law of its Culture. Closeness of Attention. Association. Reviews. Practical Use of Facts remembered. Accuracy of Statement. Studies best adapted to this culture. (6.) Education of the Reasoning Power: How to use the ordinary School Studies in developing this power,—History, Reading, Grammar, Arithmetic, the Natural Sciences. (7.) Education of the Imagination: Importance of such culture,—Æsthetically, Intellectually, Morally. Means of this culture,—Study of Nature; Study of the Classic Models in Literature; Study of Works of Art. (8.) Education of the Will: Directions in which it should be strengthened. The training required for a person of Feeble Will. How to use the circumstances of a pupil in school in such a way as to strengthen his persistency in carrying out Right Purposes. (9.) Necessity of making Education Universal: The Value of Mind. The Good of Society demands that all should be educated. Influence of Education upon Crime. Social Benefits resulting from Education.

METAPHYSICS. *Fourth Term.* Mental Philosophy precedes and is made the basis of instruction in the Theory and Art of Teaching. It comprises—(1.) An Explication of Terms. (2.) A general inquiry into the Nature of Mind: What is it? What are its Facts, Laws, and Results? The facts and laws of Knowl-

edge, Feeling, and Exertion? (3.) A more particular study of Consciousness, Perception, Memory, Imagination, and the Reflective and Regulative Powers. (4.) The Feelings. Theory of Pleasure and Pain.

HISTORY OF EDUCATION. *Seventh Term.* A History of the Culture of different Nations, from the earliest times down to the present; also, the Biography of Eminent Educators in all countries and times.

PHILOSOPHY OF EDUCATION AND OBJECT LESSONS. *Seventh Term.* Oral Discussions and Themes.

PRACTICAL TEACHING IN MODEL SCHOOL is required for Four Terms, under the Supervision of the Faculty.

---

## DIVISION II.

READING. *First and Second Terms.* Analysis of Words according to their Elementary Sounds. Articulation and Pronunciation. Compass and Flexibility of Voice. Analysis of Words according to their Derivation and Formation. Practice in Elocution.

GRAMMAR. *Second Term.* Etymology during the first half of the term: Aim to teach the office of each part of speech in the Construction of Sentences. Critical Parsing. During the last half of the term, Construct, Analyze, and Parse, sentences of various kinds. Daily exercise throughout the term in the Correction of False Syntax.

*Third Term.* Analysis and Construction of Sentences continued. Rules of Syntax. Capitalization. Consideration of Abridged Propositions and Idiomatic Forms and Constructions. Daily exercise in the Correction of False Syntax.

RHETORIC. *Fifth Term.* Formation of the English Language. Literary Taste. Figurative Language. Style, and its varieties. Punctuation. Composition. Analysis and Amplification of subjects.

LITERARY CRITICISM. *Sixth Term.* Examine the style of the best English Authors of different periods. Study particularly the style of Milton, Addison, Goldsmith, etc. Blair's Rhetoric. Compositions during the term.

*Eighth Term.* History of English Literature. Rise and Development, in England and America, of Poetry, History, Romance, the Essay, Oratory, and Metaphysics. Principal Authors in each department. Newspapers, Reviews, and Magazines. English Literature compared with that of other nations. Orations and Essays written weekly, and delivered or read in the presence of all the students.

---

## DIVISION III.

ARITHMETIC. *First Term.* The Decimal System, including Decimal Fractions, so called. Factoring, and its application to Common Multiples and Divisors. Fractions. Compound Numbers.

*Second Term.* Ratio and Proportion. Percentage, with its application to Loss and Gain, Commission, Insurance, etc. Percentage with time, including

Interest, Discount, Partnership, and Equation of Payments. Exchange (Inland and Foreign). Extraction of Second and Third Roots of numbers. Arabic method of Notation, using bases other than 10: applied particularly to Duodecimals.

**ALGEBRA.** *Fourth Term.* Algebraic Notation. Factoring, with application to Divisors and Multiples. Fractions. Equations of First Degree. Extraction of the Roots of Algebraic Quantities. Rules deduced for the extraction of the Roots of Numbers. Radicals.

*Fourth Term (Optional).* Equations of Second Degree. Ratio and Proportion. Series: including the Progressions, Binomial Expansion, Permutation, Undetermined Coefficients, Methods of Interpolation, and the Methods of Summing Special Forms; Piling of Balls and Shells. Logarithms, with Methods of Computing the Tables. Exponential Equations, with Position. Interest and Annuities.

**GEOMETRY.** *Fifth Term.* Straight Line, and Surfaces bounded by Straight Lines. The Circle. Extra Theorems and Problems given for demonstration and solution.

*Sixth Term.* Solids bounded by Planes. The Cylinder. The Cone. Surface and Solidity of Sphere. Plane Trigonometry, with its application to Land-Surveying. Leveling. Variation of Magnetic Needle.

*Eighth and Ninth Terms (Optional).* Equations of Point, Right Lines, and Circle. Equations of Point, Right Lines, and Plane in Sphere. Equations of Cylinder and Cone. General Equation of Conic Section referred to its own Plane. General Equation of Second Degree between two Variables. Loci. Surfaces of Revolution. Differential Calculus. Integral Calculus.

**PHYSICS.** *Seventh Term.* Laws of Motion and Mechanics. Hydrostatics and Hydraulics. Pneumatics. Optics. Electricity and Magnetism.

## DIVISION IV.

**GEOGRAPHY.** *First Term.* (1.) General Principles of Geography. Execution of Maps, and Outline of South America, 15 lessons; Andes Mountains, and countries containing them, 13 lessons; remaining countries of South America, 5 lessons; Cities of South America, 5 lessons; Review, 5 lessons. Total for South America, 43 lessons. (2.) Outline and Map of North America, 5 lessons; Russian and British America, 5 lessons; New England and New York, 12 lessons. Astronomical Geography, Latitude and Longitude, Day and Night, the Seasons, etc., 5 lessons. Review, 5 lessons.

*Second Term.* (1.) Remaining States and Territories of the United States, 22 lessons; Mexico, Central America, etc., 5 lessons; Review, 3 lessons. Total for North America, 52 lessons. (2.) Outline and Map of Europe, 5 lessons; Mountains and Rivers of the Continent, 5 lessons; Rapid Glance at the Countries of the Continent, 10 lessons; More thorough study of Britain as a model, 10 lessons; Review, 5 lessons. Total for Europe, 35 lessons.

*Sixth Term.* (1.) Outline and Map of Asia, 5 lessons; Mountains and Rivers of Asia, 5 lessons; Countries and Cities, 10 lessons. Total for Asia, 20 lessons. (2.) **PHYSICAL GEOGRAPHY.** Review of the Earth's Form, with a sketch of the Theory of its Origin, 10 lessons; Physical Life of the Earth, Temperature, Atmospheric and Marine Currents, Rains, and the Effects of Climatic Conditions

on Vegetable and Animal Life, 12 lessons. Historical View of the Earth: the Relations of its Forms and Physical Life to the Development of the Human Race, 8 lessons; Review, 10 lessons. Total for Physical Geography, 40 lessons.

UNITED STATES HISTORY. *Third Term.* Voyages, Discoveries, and Indian Tribes, 10 lessons; Colonial History, 15 lessons; French War and Revolution, 20 lessons; Subsequent History, with a special study of Illinois, 15 lessons; Review, 15 lessons. Text-Book—Willson.

ANCIENT HISTORY. *Fourth Term. One Term (15 weeks); 65 Lessons.* Early Asiatic Nations, 8 lessons; Grecian History, 12 lessons; Roman History, 15 lessons; Most prominent Events of the Middle Ages, 10 lessons; Britons, 5 lessons; Review, 15 lessons. Text-Book—Weber.

ASTRONOMY. *Eighth Term.* Definitions, with Oral Lessons and Exercises, 5 lessons; Constellations, with Maps of the Heavens, 15 lessons; Refraction, Parallax, Time, the Seasons, Motions, Distances and Orbits of Planets, 15 lessons; General Description of the Solar System, 15 lessons; Eclipses and Tides, 5 lessons; Review, 10 lessons. Total, 65 lessons. Text-Books—Robinson's and Burritt's.

## DIVISION V.

CHEMISTRY. *Fifth Term.* Names and Properties of Elements; Symbols; Formulæ; Chemical Affinity, etc. Laws of Definite Proportions. Behavior of Chemical Bodies toward each other. Changes of Form, Color, Properties. Air, Water, Light,—their relations to Organic Life. Organic Chemistry. Food of Plants. Outline of Chemical Analysis, qualitative and quantitative. Philosophy of Chemistry.

BOTANY. *Sixth Term.* Structure of Plants, Mode of Growth, etc. Their relations to each other. Classification. Systems of Analysis, Natural and Linnaean. Written Analysis of at least seventy-five species of native plants by the Natural system.

ANATOMY AND PHYSIOLOGY. *Seventh Term.* General View of the Structure and Functions of the Human Body. Food, and the Digestive Process. The Blood,—its Chemical Composition and Vital Properties. Respiration and Nutrition. The Nervous System. The Laws of Hygiene.

ZOOLOGY. *Ninth Term (Optional).* The Sphere and Fundamental Principles of Zoölogy. General Properties of Organized Bodies. Functions and Organs of Animal Life. Intelligence and Instinct. Metamorphoses of Animals. Geographical Distribution of Animals.

The large and splendid Museum of Natural History is now abundantly provided for. Professor Powell, the Curator, is now conducting an expedition to the Rocky Mountains, from which large additions are expected.

## ADMISSION.

This Institution is intended for the training of young persons of both sexes for teachers in the Schools of Illinois.

Students seeking admission to the University should make application to the School Superintendent of the county in which they reside, and are required—

- (1.) To be, if males, not less than 17, and if females, not less than 16, years of age.
- (2.) To produce a certificate of good moral character, signed by some responsible person.
- (3.) To sign a declaration of their intention to devote themselves to School-teaching in this State, in form as follows:

“I hereby declare my intention to become a teacher in the schools of this State; and agree that, for three years after leaving the University, I will report in writing to the Principal thereof, in June and December of each year, where I have been, and in what employment.”

- (4.) To pass a satisfactory examination, before the proper officers (County School Superintendents), in Reading, Spelling, Writing, Arithmetic, Geography, and the elements of English Grammar.

### EXTRACT FROM THE NORMAL-UNIVERSITY ACT.

SEC. 7. Each County within the State shall be entitled to gratuitous instruction for one pupil in said Normal University, and each Representative District shall be entitled to gratuitous instruction for a number of pupils equal to the number of representatives in said district, to be chosen in the following manner: The School Superintendent in each county shall receive and register the names of all applicants for admission to said Normal University, and shall present the same to the County Court, or in counties acting under township organization to the Board of Supervisors; which said County Court or Board of Supervisors, as the case may be, shall, together with the School Superintendent, examine the applicants so presented, in such manner as the Board of Education may direct, and from the number of such as shall be found to possess the requisite qualifications such pupils shall be selected by lot; and in representative districts composed of more than one county, the School Superintendent and County Judge, or the School Superintendent and Chairman of the Board of Supervisors in counties acting under township organization, as the case may be, of the several counties composing such representative district,

shall meet at the Clerk's office of the County Court of the oldest county, and from the applicants so presented to the County Court or Board of Supervisors of the several counties represented, and found to possess the requisite qualifications, shall select by lot the number of pupils to which said district is entitled. The Board of Education shall have discretionary power, if any candidate does not sign and file with the Secretary of the Board a declaration that he or she will teach in the public schools within this State, in case that engagement can be secured by reasonable efforts, to require such candidate to provide for the payment of such fees for tuition as the Board may prescribe.

(AMENDED FEBRUARY, 1861.)

SEC. 4. Each County in this State shall, hereafter, be entitled to gratuitous instruction for two pupils in said University, to be selected as provided in Section Seven of the Act to which this is an amendment.

If any County or Representative District neglects to make appointments, the President of the University is, by a resolution adopted by the Board of Education, authorized to fill the vacancy by appointing any person of proper age and qualification. Every such person must pass, before the President, an examination similar to that required, before the County Superintendent in other cases.

#### SUGGESTED FORM OF CERTIFICATE.

I hereby certify that I am well acquainted with ....., and know him [or her] to be a person of good moral character.

In case the School Superintendent is not able to make the above certificate himself, something like the following indorsement should be appended by the School Superintendent:

I am well acquainted with ....., who signs the above certificate, and believe him to be an entirely reliable man; and, so far as I know and believe, the above-named applicant is a person of good moral character.

## ADDITIONAL INFORMATION.

---

Thorough DISCIPLINE will be enforced in every department of the University.

Experience has shown it to be very necessary that a perfect understanding should exist between the President and those with whom the students board, in respect to the habits and conduct of students at their rooms. This will, accordingly, be carefully attended to.

---

PHYSICAL EXERCISES will be had daily in all the departments. Dr. Lewis's System of Light Gymnastics is now thoroughly introduced, and the results are in the highest degree satisfactory.

---

BOARD can be obtained in good families for about \$4.00 a week, exclusive of fuel, lights, and washing; when these are furnished, except washing, the charge is a little more.

The expense of board is reduced about one-half by boarding in clubs, and by self-boarding. Rooms can be secured, at reasonable rent, in the village.

---

The following may be considered a near approximation to the necessary EXPENSES for one year, exclusive of pocket-money, apparel, traveling, and board in vacations:

Board, 40 weeks, . . . . .	from	\$80.00	to	\$160.00
Washing, . . . . .	"	12.00	"	18.00
Books and Stationery, . . . . .	"	5.00	"	10.00
Total, . . . . .		\$97.00		\$188.00

Tuition is free.

---

TEXT-BOOKS are furnished free of expense, but every student is required to make good all damages received by books while in his possession.

Students are advised to bring with them such books as they may have, but not to purchase others until they arrive at the University.

The APPARATUS is excellent in quality, and sufficiently ample for ordinary purposes of illustration.

The DIPLOMA of the University is conferred upon all those who creditably complete its full course of study and practice.

There are two LITERARY SOCIETIES, the Philadelphian and Wrightonian, each of which has a well-selected library.

The MUSEUM and LIBRARY of the Illinois Natural-History Society are located in the University building, to which the students of the University will have access, under suitable restrictions.

# MODEL SCHOOL.

## COURSE OF STUDY, ETC.

The MODEL DEPARTMENT was established in order that there might be a school, exhibiting the best methods of teaching, discipline, and classification, which the Normal Students should visit, and in which they should take part as instructors. Every effort will be put forth to make this, as far as may be, a perfect school, conducted upon the best methods, and showing the most wholesome results.

It is intended that the course of study in its several departments shall embrace all that belongs to a thorough education, from the elements up to a preparation either for College or Business. For the lower classes, a system of Object Lessons has been prepared with the greatest care. The design of this is to awaken the perceptive faculties, and to form a habit of accurate observation. Children thus trained not only make more thorough scholars, but also more practical men and women.

It is divided into four departments,—the High, Grammar, Intermediate and Primary Schools. Each of these is under the direct charge of an accomplished and efficient Principal, who is assisted in part by permanent teachers, and in part by the pupil teachers from the Normal School. Their work is subjected to the most rigorous supervision, and suggestions are constantly made for their guidance and improvement.

The Classical Course is very thorough and is much more extended than that of some colleges. Our young men enter Harvard and Yale without conditions.

The accompanying plan of study will give a general idea of the subjects to be pursued in the High School, and of the time allotted to each. It will be observed that two distinct courses are arranged for the High School: one to prepare students for College, and the other for general Business. The two, however, are made to blend whenever practicable.

The only requisites for admission are a small tuition fee, and a good character. Pupils, on being examined, are classed according to their attainments.

Boys and girls from abroad may be confidently intrusted to the care of the Principals; and besides the monthly report of scholarship and deportment at school, which is to be sent to all parents, will be included, if desired, a careful statement of each pupil's general deportment, and of the manner of spending leisure hours.

Physical Exercises are daily practiced by the entire school, and the effect upon the health of the pupils is most excellent.

## CALENDAR FOR 1867--'68.

20. CLASS SONG.
- 

**BENEDICTION.**

## Class Song.

With hearts full of thankfulness, gather we here  
Once more ere we bid you a final adieu.  
We thank our good Father for friends kind and dear;  
And, teachers, so faithful, we thank Him for you.

As memory throws a quick glance o'er the past,  
How much more of sunshine than shadow we see.  
Each ray that succeeds is more bright than the last,  
Each hope for the future, more joyous and free.

Then, part we now sadly, with hearts boding ill,  
While prospects before us so cheering appear?  
Or shall we rejoice, as we haste to fulfil  
That mission whose time of fulfillment is near?

We grieve not to see the soft blush of the morn  
To noontide's full luster and radiance grown,  
Nor yet the rich fruits of the Autumn adorn  
The boughs of the trees whence the blossoms have flown.

No husbandman sighs, as he goes forth to reap;—  
He longs for the time when the harvest shall yield,  
And prays to the Lord, who the harvest doth give,  
To send forth more laborers into the field.

Then cheerful we leave you, to answer the call—  
Inspired by the pictures fair Hope brightly weaves;  
For we know, if we faithfully labor, we all  
Shall come again, joyfully bearing our sheaves.

THE NEXT TERM BEGINS ON MONDAY, SEPT 9TH, 1867.
