OF THE

STATE BOARD OF EDUCATION.

PROCEEDINGS OF REGULAR MEETING,

JUNE 28TH AND 29TH, 1871.

NORMAL, UNIVERSITY, }
NORMAL, ILLINOIS, JUNE 28TH, 1871. }

THE BOARD OF EDUCATION OF THE STATE OF ILLINOIS convened on Wednesday, June 28th, 1871, at ten o'clock A.M.

PRESENT—Messrs. S. W. Moulton, Wm. H. Green, C. Goudy, W. S. Coy, Enoch A. Gastman, Charles F. Noetling, Edward L. Wells, Dr. J. H. Foster, W. L. Mayo, and J. W. Fell—12.

ABSENT—Messrs. B. G. Roots, T. R. Leal, and N. Bateman—3.

On motion, Dr. Calvin Goudy was chosen Secretary *pro tem*.

On motion, the reading of the minutes of the last meeting was dispensed with.

The following letter from Secretary Bateman, explaining his absence, and suggesting various matters for the consideration of the Board, was read by the President, and ordered to be spread upon the minutes:

DEPARTMENT OF PUBLIC INSTRUCTION, }
SUPERINTENDENT'S OFFICE, }
Springfield, June 26, 1871. }

HON. S. W. MOULTON, Pres't State Board of Education, }
Normal, Illinois. }

SIR: I regret my inability to attend the meeting of the Board on the 28th instant. I am under engagement to address the Literary Societies of Monmouth College on the evening of the 27th instant, and it will be impossible for me to reach Normal before the afternoon of the 28th, or the morning of the 29th.

It is due to myself to say that at the time I made the Month engagement, over two months ago, I was not aware that the time conflicted with that of the Board meeting; otherwise the engagement would not have been made.

Herewith I hand you printed copies of the proceedings of our last meeting, for the use of members at the present meeting; also Mr. Nason's bill for printing the same, which please have paid.

I also hand you commissions of Messrs. John H. Foster, N. E. Worthington, E. L. Wells, B. G. Roots, and C. F. Noetling, as members of the Board. I am informed that E. A. Gastman, who was appointed in place of Gen. Moore, has already received his commission.

I also hand you, herewith, a copy of the act entitled "An Act to appropriate money to the State Normal University for the next two years," approved April 14, 1871, duly authenticated by the Secretary of State. Particular attention is invited to the conditions imposed by the first section of said act, in the case of the appropriations for the salary of the Curator of the Museum and for the support of the Museum. Action thereon should, in my opinion, be had at this meeting of the Board, so that there may be no delay or hindrance in the payment of said appropriations.

Attention is also respectfully directed to the *proviso* in Section 2 of said act, whereby the payment of the sums appropriated in said section is conditioned upon the furnishing certain vouchers, etc.

Permit me also to refer to the decease, since our last meeting, of our fellow member Dr. Henry Wing, and to suggest the propriety of suitable recognition of that sad event on the part of the Board.

In conclusion, allow me to congratulate the Board upon the very hopeful future that seems to lie before the State Normal University. While we have not yet secured the appropriation for a fire-proof building for the collections of the Museum, the Legislature has responded to all our other requests for funds in a very liberal spirit, and we have no reason to complain. The handsome appropriations for replenishing our Library, and for chemicals and for apparatus for Prof. Sewall's Department, may be referred to with especial satisfaction.

Wishing you a harmonious and profitable meeting, I am,

Very respectfully,

Your obd't serv't,

NEWTON BATEMAN, Secretary.

This being the stated biennial meeting of the Board, when, by the 11th and 12th sections of the act creating the institution, a President and Treasurer of the Board are required to be elected,

Hon. W. L. Mayo nominated for President the present incumbent, Hon. S. W. Moulton, who was unanimously reelected.

Thereupon W. S. Coy nominated Charles W. Holder for Treasurer, and he was duly reelected to that office.

President Edwards appeared, and read his annual report, as follows:

Since the meeting in December, Miss Emaline Dryer has resigned her place on the Faculty. She had been in your service six years, and I believe it is the unanimous opinion of all who were acquainted with her work that her influence upon the stu-

dents was in a remarkable degree efficient and improving. Her resignation was generally and sincerely regretted.

During the month of April, Professor Metcalf was compelled by ill health to relinquish for a time his place in the school. He is now traveling on the continent of Europe, with a good prospect of full restoration. He is expected here about the first of August, and there is every reason for supposing that he will be ready for duty in September. By a private arrangement, Miss Bandusia Wakefield has performed his work during his absence, to the entire satisfaction, as far as known, of all concerned.

On the resignation of Miss Dryer, Miss Myra A. Osband was appointed by the Committee on Teachers to the vacant position. Miss Osband has entered upon her duties with faithfulness and success, and has shown herself abundantly able and willing to perform them.

By the provisions of the new State Constitution, it became necessary to procure from the Legislature a renewal of all our appropriations, including the interest on the College and Seminary Fund. The following appropriations were made for the ensuing two years:

For Salaries and Current Expenses, including Interest on Coll. and Sem. Fund, per annum.....	\$21,444.99
For Library of Books of Reference, per annum.....	750.00
For Ordinary Repairs, per annum.....	1,000.00
For Care of Grounds, per annum.....	250.00
For Museum and Salary of Curator, per annum.....	2,500.00
For Personal Expenses of Members, per annum.....	500.00
For Fuel, per annum.....	750.00
For Janitor's Supplies, per annum.....	100.00
For Chemicals and Apparatus, per annum.....	1,500.00
Whole amount of annual appropriation.....	\$28,794.99

These sums are to be paid quarterly in advance. It is provided in the bill that the amount appropriated for the Museum and Salary of Curator shall not be paid over until the collections, cases, etc., of the Natural-History Society, now in the Museum, shall be made over to the State, in such way as shall be satisfactory to the Governor. That transfer has now been made, completely and without conditions.

Besides these annual appropriations, there were appropriated,

For a Fence.....	\$1,200.00
For improvements in Heating Apparatus and Ventilation	4,000.00
Total of special appropriations.....	\$5,200.00

These sums are to be paid on presentation of proper vouchers in favor of the parties to whom the money may be due. The vouchers must be satisfactory to the Governor.

The class admitted at the beginning of the present term is unusually large for this time of the year, and contains an unusually large proportion of young men. Heretofore, since the breaking-out of the war, the ladies have constituted from three-fifths to two-thirds of the Normal Department. But in this class there are 63 gentlemen to 38 ladies. It will be seen that in the entire Department the sexes are just about equally divided.

By a resolution of the Board, passed one year ago, a desire is expressed for full information in regard to the examinations for admission into the University, and especially in regard to the rejected candidates. My attention was not called to this resolution in time to report upon the admissions during the Fall Term, but a nearly accurate statement can be made for the last two terms.

In respect to the examination, the effort is simply to ascertain whether the candidate can profitably do the work of our classes. In Arithmetic, a thorough trial is made of his knowledge of the decimal notation, of the fundamental rules, of the tables of weights and measures, and of fractions. In Geography, questions are given upon the location of places, the course of rivers, character of surface, railroad lines, population of principal cities, etc., in our own and adjoining states. The location of prominent places in other parts of the Union, and the world, the direction and distance of one from another, and the means of traveling, are also brought in to some extent. In Grammar, the candidate is required to call at sight the different parts of speech in a given paragraph, and to state their most important relations and functions. In Reading, he is required to call the words fluently and to indicate with reasonable accuracy the correct emphases and inflections. In Spelling, some twenty ordinary words are given. The applicant is required to write a reasonably legible hand. Upon each of these the candidate is marked, and if the average of his marks is 65 (100 being the standard), he is admitted, unless he is a resident of McLean County. In the latter case an average of 75 is required.

In the Winter Term, beginning in January, there were about sixty applications, and fourteen of them were rejected. Last term there were ninety candidates, and twenty of them were rejected.

By another vote passed one year ago, I am required to "report each year, at the June meeting, the number of applicants for graduation at the commencement of the term preceding said meeting, and the cause of rejection, if any." At the beginning of the present term, the number of such in the Normal Department was 22, and the High School 1.

The Diplomas for the institution have been made by the same lithographer in Chicago, from the founding of the institution to the present time. But I have reason to think that better terms and better work can be secured at other establishments.

During the coming vacation, a Teachers' Institute, of two weeks' duration, is to be held at the University, commencing on Monday, August 7th.

I have sent circulars to the past members of our school, inquiring about the amount of their teaching and where it has been done. About six hundred answers have thus far been received. A very much larger number ought to be received, and probably will be. The object of the circular is to procure information that will enable us to state, with something like certainty, to what extent our pupils have taught.

The Faculty recommend the following persons for graduation:

In compliance with the requirements of the first section of the act making appropriations to the State Normal University, approved April 14, 1871, the State Natural-History Society relinquished to the State of Illinois all its right and title in and to the Museum of Natural History located in the University Building; in evidence of which, the following document was submitted to the Board:

WHEREAS, The State Natural-History Society, at a meeting held in the City of Bloomington, and State of Illinois, on the 22d day of June, 1871, appointed the undersigned agent for said Society to assign and transfer all the property of said Society to the Board of Education of the State of Illinois, in pursuance of the resolutions of said Society: Therefore, by virtue of said authority, said Natural-History Society hereby assigns and transfers all its property of every kind, now in the Normal-University Building, to the said Board of Education for ever.

JUNE 29, 1871—8 O'CLOCK A.M.

Pursant to adjournment, the Board convened, with the same attendance as on the previous afternoon.

Mr. Bateman, of the Select Committee appointed for that purpose submitted the following preamble and resolutions, in respect to the death of Dr. Wing, which were unanimously adopted:

WHEREAS, Since our last meeting, Dr. Henry Wing has departed this life, and we desire to put on record our appreciation of his worth as a man, and his services as a member of this Board; therefore,

Resolved, That, in the decease of Dr. Wing, the *Board of Education of the State of Illinois* has lost one of its most intelligent, far-seeing and devoted members; the cause of Education one of its ablest and most effective supporters; the students of the Normal University a true and faithful guardian, and every interest of humanity a sympathizing friend.

Resolved, That we recall, with grateful emotions, the gentle and unobtrusive manner of Dr. Wing as he moved among us; his genial and kindly spirit, and his many wise and valuable suggestions in respect to the affairs of this Board, and to the future of the University.

Resolved, That these resolutions be spread upon the records, and a copy thereof, with assurances of our most respectful sympathy, be forwarded by the Secretary to the afflicted widow and family of the deceased.

C. F. NOETLING, } Committee.
W. L. MAYO,

Mr. C. W. Holder, having been reappointed Treasurer of the Board, submitted his official bond, which was examined, and, being found in due form and amply secured, was approved by the Board.

Mr. Fell submitted certain propositions concerning the leasing of the University farm and of the grounds around the building; when, on the motion of Judge Green, the whole subject was referred to the Committee on Buildings and Grounds, with power to act, and to report their doings in the premises at the next stated meeting of the Board.

Mr. Bateman, Chairman of the Committee on Officers and Teachers, made the following report, which was concurred in:

The Committee on Officers and Teachers, to whom was referred the resolution in regard to the employment of a Training Teacher, etc., have had the subject under advisement.

The Committee are not able to see that the appointment of a Training Teacher, as proposed in said resolution, is expedient or practicable at this time, and we therefore recommend —

1. That President Edwards be authorized to engage a lady teacher of suitable qualifications to fill the place made vacant by the resignation of Miss Kingsley, at a salary not exceeding \$750 per annum.

2. That President Edwards be also authorized to engage the

services of a gentleman of thorough classical qualifications, as Principal of the High School, at a salary not exceeding \$2,000 per annum,—the action of the President, in each case, to be subject to the approval of the Board at the next meeting.

Respectfully submitted.

NEWTON BATEMAN,
WM. H. GREEN,
E. A. GASTMAN.

Judge Green submitted the following resolution, which was concurred in:

Resolved, That it is the sense of this Board that the Professors in the University should, in turn, act as Training Teachers in the Model School; and President Edwards is requested, until a Training Teacher is employed, to see that this resolution is carried into effect, and report the result at the next meeting.

Whereupon the Board adjourned.

[Signed] S. W. MOULTON, President.

NEWTON BATEMAN, Secretary.
