RE: Proficiency Examination Policy

I suggested at the last meeting a change in item 1 of the Policy Statement for Proficiency Examinations on which the A.S. Committee is now working. This revision goes as follows: "... of the final course grade. Students earning a score on a proficiency examination which is equivalent to a C will have that requirement waived, those earning a score equivalent to a B or above will receive credit for the course. Thus, if the course will satisfy, for example, a Group A requirement in the University Studies program, earning a score at the C level will reduce the requirements in that Group by the number of semester hours the course in which the proficiency examination is taken is worth or if that course is a prerequisite for more advanced courses, the prerequisite for the advanced course(s) is satisfied. If the score carried is at the B or A level, the above is true plus the student receives credit for the course. A student who earns a score on the proficiency examination below the C level receives no credit nor are requirements or prerequisites waived."
