ANNUAL MEETING OF THE BOARD OF EDUCATION,

June 3, 1903.

PROCEEDINGS OF THE BOARD OF EDUCATION OF THE
STATE OF ILLINOIS.

REGULAR MEETING.

NORMAL, ILL., June 4, 1902.

The Board of Education met in the office of the president of the university at 9:00 o'clock a. m., Wednesday, June 4, 1902.

Present—Messrs. Bayliss, Capen, Gastman, Hainline, Robertson, Sandham, Walker and Mrs. Young.

On motion of Mr. Walker, Mr. Gastman was chosen president *pro tem*.

The minutes of the meeting of Dec. 18, 1901, as printed, were approved.

The president of the university presented and read the following report:

PRESIDENT FELMLEY'S REPORT.

To the Board of Education of the State of Illinois:

MR. PRESIDENT AND MEMBERS OF THE BOARD:—The attendance in the normal department for the two terms since your last meeting is as follows:

	Winter.	Spring.
Men.....	98	78
Women.....	361	327
Total.....	454	405

The number of new students admitted to the normal department during the two terms are:

Men.....	20
Women.....	47
Total.....	67

The total enrollment in the Normal Department since Sept. 9, 1901 has been:

Men.....	110
Women.....	424
Total.....	534

Twelve additional students have been enrolled in the preparatory department. Seventy-four counties were represented as follows:

Adams.....	6	Macoupin.....	5
Bond.....	1	Madison.....	7
Bureau.....	2	Marion.....	8

It will be observed in comparing the attendance with the attendance of the last two years that the number of women has not diminished. There is a falling off in the attendance of men. The same change is observed in many other state normal schools, and in the literary departments of our colleges and universities. Young men are flocking to the technical schools. The business world now offers abundant inviting opportunities. Teaching is less attractive. The relative increase in the number of women teachers in the public schools is at equal pace with their increase in the schools that prepare them for their work.

The following persons are recommended by the faculty for graduation:

Kofoid, Reuben.....	McLean		

Of these students the following still lack credits of completing their work. They expect to finish the missing studies in the summer term and are to receive their diplomas after their work is completed:

Minnie Breining, Josephine A. Briggs, Myrtle Marie Champion, Estella Pearl Corson, Dula Dawson, Florence Dorothea Dixon, Frances R. Fletcher, Reuben Kofoid, Margaret W. Schilling.

It is recommended by the faculty that hereafter, if at the time of the annual commencement any student lack no more than two credits of completing his course of study and declare his intention of taking the required studies in the summer school, he be permitted to take part in the graduating exercises, and receive his diploma from the president upon the satisfactory completion of the course.

THE COURSE OF STUDY.

It is recommended that in the 4-year program the work of geography be deferred until the spring term of the first year. This will enable the students to complete two preliminary courses in nature study and physical science. The elementary course in United States history may then be placed at the beginning of the first year and the three terms of grammar consecutively in the second year.

It is recommended that Phillips & Fisher's elements of geometry be adopted instead of the MacNie now in use, and that the Crew & Tatnall laboratory manual of physics be adopted instead of the Chute manual now in use. It is further requested that the teacher of physics be permitted to use Crew's elements of physics with some of his classes during the coming year.

In addition to electives provided in the course as adopted by the Board of

Education in 1900, the members of the faculty offer elective courses in astronomy, trigonometry, modern English history, modern European history, the history of Illinois, advanced economics, Browning, the Elizabethan drama, and recent English poetry.

THE TRAINING DEPARTMENT.

The union of the practice school with the public school of Normal has proved eminently satisfactory. The local board of education and Superintendent E. A. Fritter have rendered every possible assistance in our work. With 24 classes below the high school we are enabled to grade the pupils more carefully. We have classes of ample size, and for our more advanced students we can provide teaching under substantially the same conditions as obtain in ordinary public schools.

During the past term 98 students have taught in the practice school. Of these, 21 taught two classes in the same subject; 17 have taught two subjects daily; others have taught one class per day. The demand for classes has been so great that the critic teachers have had little opportunity to teach themselves. The interests of the children require that a part of their instruction be received from the regular teachers. It is recommended that another critic teacher be appointed for the seventh grade (fifth year) in the public school system.

THE FACULTY.

The recent additions to our faculty have made the work of the past year in many ways more satisfactory than in previous years. Classes have been so large as to make impossible proper attention to the individual student. Our average class enrollment is now about 35. The heads of departments and some other teachers visit the practice school daily and assist student teachers in planning their work.

Miss Wilkins, who has served for ten years as assistant in history and geography, requests a year's leave of absence for study at the university. Her work as a teacher and her personal influence among the students have been of the highest value to the institution. It is recommended that the request be granted.

It is recommended that the work in geography be separated from the department of history, and that Miss Mary Judson Averett be given charge of the geography with the title Teacher of Geography. It is also recommended that Mr. McCormick's title be Professor of History and Civics.

The following extra teachers have been employed for the summer terms:

- John Arthur Strong, grammar; salary \$25 per week.
- Herbert Bassett, physics and chemistry; \$25 per week.
- Sarah E. Griswold, primary methods; \$40 per week.
- Nathan A. Harvey, zoology and botany; \$50 per week.
- B. C. Moore, mathematics; \$25 per week.
- William A. Lewis, history and civics; \$25 per week.
- Albert B. Wolfe, literature; \$25 per week.

THE CALENDAR.

The following calendar is recommended for the year 1902-3:

- Fall term, Sept. 8, 1902, to Nov. 26, 1902.
- Winter term, Dec. 1, 1902, to March 6, 1903.
- Spring term, March 16, 1903, to June 4, 1903.
- First summer term, June 8, 1903, to July 17, 1903.
- Second summer term, July 20, 1903, to Aug. 28, 1903.
- Winter recess, Dec. 20 to Jan. 3, two weeks.
- Spring vacation, March 7 to March 15.
- Semi-annual meeting of the Board of Education, Dec. 19 1902.
- Annual meeting of the board, June 3, 1903.

BUILDINGS AND GROUNDS.

At the last meeting of the Board of Education it was ordered that lockers be placed in the gymnasium. Sixty lockers have been placed in the men's gymnasium, 168 lockers, with dressing closets, in the women's gymnasium. The total cost of this improvement has been \$817.79.

Sixty-seven trees of 17 species have been planted in the campus. The bare areas about the buildings have been graded and seeded. The total cost of the improvement has been about \$190.

It is recommended that a cement walk be built along the east and south sides of the main building and that the basement entrances be repaired. This improvement will cost about \$300. It is recommended that the walls and ceilings of the assembly rooms be repainted; estimated cost, \$70.

About one-third of the lot set apart for a school garden has been laid out in individual beds, usually three feet by five, and planted in vegetables and flowers. About 100 normal students and 320 children of the practice school have received allotments. It is evident, however, that but little valuable instruction in floriculture and horticulture can be given by our regular teachers. There is imperative need of a greenhouse and a competent florist if any substantial work is done.

In accordance with your instructions I have obtained estimates of the cost of a greenhouse. The financial report and estimates for the coming year will show that this expenditure can be met.

The greenhouse at the Southern Illinois State Normal School, 50x20, with main portion 24x24, cost about \$1,800. The plans are here for your inspection.

Lord & Burnham of New York, for a greenhouse 18x50x12, complete, ask \$2,150, besides the cost of the foundation and brick work and workroom, estimated at \$1,200.

Plans are here for your examination.

Hitchings & Co. of New York ask \$1,800 for the same.

In the light of these estimates it is probable that a suitable greenhouse, equipped, will cost \$3,000.

LIBRARIAN'S REPORT—CIRCULATION.

An examination of the return records shows that books are drawn out by almost every pupil in the school, including the primary department.

These figures do not show nearly all the use that is made of the books. Many books are read in the room every day, of which it is impossible to make any record whatever.

LIBRARY ASSISTANT.

Mr. Johnston wishes to leave us and take up another occupation next fall. He has filled his present position for two years, and has taken so much interest in the library and got the work so well in hand that he will be greatly missed. It is recommended that both elementary technical training and personal fitness be required of candidates for this position.

FINANCES.

The balance in the special fund is.....	\$ 952 00
The balance in the general fund is.....	8,545 94

Out of this balance ought to be paid:

In conclusion, I would state the past year has been a very pleasant year from the standpoint of the faculty. The spirit of the students was never better. The senior class numbers one-fifth of the school. The presence of so large a body of mature, highly intelligent, and responsible students has made administration easy, teaching a delight.

On motion of Mr. Sandham, the foregoing report was accepted and the several parts thereof recommending action by the board were referred to the appropriate committee for consideration.

The treasurer of the board presented the following report, which, with accompanying vouchers, was referred to the committee on auditing and finance.

REPORT OF THE TREASURER.

To the Board of Education of the State of Illinois:

MR. PRESIDENT AND MEMBERS OF THE BOARD:—My last report as your treasurer included Dec. 17, 1901, and showed a balance on hand of \$9,049.52. The receipts have since amounted to \$26,428.82, from the following sources, viz.:

Sale of brick and iron	\$ 15 04
Rent of land	396 15
Tuition and term fees	2,157 63
State Treasurer	2,386 00
Total	\$26,428 82

The disbursement has amounted to \$25,979.91 as shown by 57 vouchers, which are returned herewith, together with a statement of account in detail.

The amount on hand at this time is \$9,498.43.

All of which is respectfully submitted.

Mr. Robertson suggested the advisability of a model ungraded school as part of the practice school, and—

Mr. Bayliss moved that Mr. Robertson and President Felmley be a special committee to report a plan for such a modification of the organization of the practice school at the next regular meeting of the board, and the motion was agreed to without dissent.

On motion of Mr. Capen, the committee on buildings and grounds was authorized to extend the raised floor in Normal Hall, and to provide 117 extra chairs for the same.

Mr. Hainline moved to authorize the committee on buildings and grounds to procure such other additional seats and furniture as may be necessary, and it was so ordered.

The committee on buildings and grounds reported as follows in regard to the matter of a greenhouse:

We recommend that the consideration of the recommendation in the report of President Felmley relative to the building of a conservatory be postponed to the next meeting of the board.

CHARLES L. CAPEN,
E. A. GASTMAN.

Mr. Walker moved to amend the report by adding the following:

Provided, that the sum of \$1,500, or so much thereof as may be necessary, be appropriated for initial work in manual training in the practice school, the continuation of the work in nature study, and for the preparation of plans for a practical greenhouse.

The question being upon the adoption of the foregoing amendment, a roll call was ordered, which resulted as follows: Yeas, 5; nays, 3; and the amendment was adopted.

Those voting in the affirmative were: Messrs. Hainline, Robertson, Walker, Bayliss and Mrs. Young.

Those voting in the negative were: Messrs. Capen, Gastman and Sandham.

The question being upon the adoption of the report as amended, a roll call was ordered, which resulted as follows: Yeas, 7; nays, 1; and the report was adopted.

Those voting in the affirmative were: Messrs. Bayliss, Capen, Hainline, Robertson, Sandham, Walker and Mrs. Young.

Voting in the negative: Mr. Gastman.

At the hour of 12:30 p. m. Mr. Robertson moved that the board do now adjourn.

The motion prevailed,

And the board adjourned.

E. A. GASTMAN,
President pro tem.

ALFRED BAYLISS, *Secretary.*
